

Course Overview

The GUE Documentation Diver course is designed to introduce divers to sound documentation techniques in order to support project-based diving. It will soon become a required course for any divers seeking to join GUE projects around the world.

Conducted over a very intense 4 day period, the class covers both theory and practical applications and introduces students to the project management, basic photography/videography concepts, how to create project reports, how to map and survey and how to prepare material for media publication.

Skills

The GUE Documentation Diver class introduces divers to a very wide range of skills: underwater photography/videography - including how to provide lighting support and how to model successfully; underwater survey and mapping techniques; team protocols for successful team cooperation underwater.

Your Instructor

Jamie Obern is New Zealand's only GUE instructor and has been teaching GUE classes since 2009. He has been involved with GUE since 2005 and is a passionate advocate for GUE in New Zealand. As well as running GUE classes Jamie is also actively involved in GUE projects, both in New Zealand and overseas.
